ENC Mono Bluetooth Headset

712BT SERIES

Introducing the 712BT Mono headset, a versatile and reliable wireless audio solution that's perfect for busy professionals. With Multipoint Technology, this headset can easily connect to two devices at once. Bluetooth V5.0 connectivity ensures a fast and stable connection, while the Dual Mics with Environmental Noise Cancelling technology helps to reduce unwanted background noise for clear and crisp sound quality.

Its roaming distance is up to 10 meters, you can stay connected to your device while you're on the move. So you can enjoy your favorite tunes or engage in productive conference calls without missing a beat.

The 712BT Mono headset features an In-Ear wearing style that provides a secure and comfortable fit for extended use.

Experience your audio requirements by working remotely, traveling, or on the move with the 712BT Mono headset.
